It is important to plan the food you are taking with you on the camping trip. You need to think about how many days you will be gone. You also need to think about how many people are going on the trip.

	Tuesday	Wednesday	Thursday	Friday	Saturday
	1	2	3	4	5
7	8	9	10	11	12
14	15	16	17	Camping	Campin
21	22	23	24	18	19
28	29	30	31	25	26

The Coan family camping at the beach.

The Coan family is planning the food they want to take. They make 8 cups of trail mix. They put the same amount in each bag. That means that they put 2 cups of trail mix in each bag.

## LET'S EXPLORE MATH

The 4 people in this family are going camping. They bring 8 apples for the trip. How many apples will each person get if they share the apples equally?
